President's Article

Jeff LeMere

April 2014

First off, again, I would like to apologize for our previous or lack of previous general meetings and presentations. Mother Nature was against us again ... Two (2) Blizzards in one year ???

Our canceled meeting, March 14, with Mr. Roger Watts, Owner from Medical Gas Systems Solutions, will be rescheduled for a later date.

Barring any further Blizzards or driving bands, our April meeting promises to be very interesting.

Mark Schiller from Mark W. Schiller Corp. and Richard Sherren, P.E. will have a presentation on Seismic requirements and codes. Mr. Sherren will address the following topics:

1. Present New York State Building Code, with ASCE 7-05 and IBC 2006.
2. Seismic restraints for plumbing pipe & equipment.
3. Exemptions for pipe.
4. Housekeeping pad requirements.
5. Installation of seismic restraints.

The presentation will be directed to design engineers, estimators, project managers and installers.

As mentioned many time before, this chapter of ASPE is here for you...should you have a topic that you would like us to get a presentation together for, please let one of us know and we will do our best to make it happen.

Hope to see you all on Wednesday April 9, 2014 - Noon at the Eagle House.
